Newcomer to the Timpani label, the Debussy Quartet is certainly one of the finest elements of the current French musical scene. With twenty years of experience, winner of the 1st Grand Prize at the Evian Competition in 1993 and the 'Victoires de la Musique' Award in 1996, the group is continually expanding its repertoire and range of activities.

Without neglecting the 'great' repertoire, the Debussy Quartet has made a name for itself defending French music in the person of composers such as Witkowski, Bonnal, Onslow...

Originally from Lyon, the Quartet performs all over the world from the USA to Japan, in San Diego as well as in Berlin.

One will easily understand why Timpani is proud to release a disc beginning a series with them, their last recording going back to the version for string quartet of the Mozart Requiem (Decca). The choice settled on Guillaume Lekeu, a Belgian trained in France. Whereas his Violin Sonata is almost universally known, the music lover will discover the magnificent work of the quartets, filled with a profound, autumnal melancholy.
